Computer Science Institutes

ERCIM Italian Partners

Norma Lijtmaer

Institute for Information Processing

The CNUCE Institute

Institute for Telematic Applications

Institute of Computational Mathematics

Institute of Computational Linguistics

Functionality

- Research
- Teaching and Training
- Technology Transfer
- International Cooperation
- European and International Projects
- National Projects and Technology Transfer
- Advanced Infrastructure

Institute for Information Processing

- Software Engineering
- Computer System Design
- Information Engineering
- Signal and Image Processing
- Visual Computing

http://www.iei.pi.cnr.it

The CNUCE Institute

- Design and Analysis of Computing Systems
- Multimedia & Networking
- Information Systems
- Space and Structural Mechanics
- Advanced Scientific Computing

http://www.cnuce.cnr.it

Institute for Telematic Applications

- Planning and Testing of telematic applications for research support
- Study, planning and testing of local and regional networks
- Networks security and reliability

http://www.iat.cnr.it

Pisa Research Area

M

Institute of Computational Mathematics

- Computational Complexity and Interdisciplinary Applications
- Foundations of Parallel and Distributed Computing
- Numerical Integration and Linear Algebra

http://www.imc.pi.cnr.it

Pisa Research Area

ບ <u>M</u>

Institute of Computational Linguistics

- Reusable Linguistic Resources and Standards
- Computational Philology and Text Processing Humanities
- Knowledge Representation and Natural Language Processing
- Models and Tools for Man-Machine Interaction

http://www.ilc.pi.cnr.it

Pisa Research Area

<u>ပ</u>

CNUCE / IEI

European and International Projects

CNR - GMD

Cultural Heritage:

- Automatic Acquisition and Real-Time Visualization of Cultural Heritage in 3D.
- Parallel Structural Analysis of Historical Buildings.

Multimedia:

- The CNR-GMD Virtual Library Project.
- IMPROVE Integrated Media Production Environment.

Technology:

- DECOR Dependable Co-operative Real-Time Systems.
- AMC ATM-based Wireless Mobile Computing.

CNR - DIMATIA

• Discrete Mathematics and Theoretical Computer Science Consortium.

CNR - UNITED NATIONS

UNL Universal Networking Language.

CNR - ESI

Qualification Scheme for Software Assessors.

European Commission

AQUARELLE Sharing cultural heritage through multimedia telematics.

ECHO European Chronicles On-Line.

DEDUGIS Deductive constraint databases for intelligent geographical

information systems.

DELOS A Network of Excellence on Digital Libraries.

• EUROGATHERER A Personalised Information Gathering System.

GUARDS Generic Upgradable Architectures for Real-time

Dependable Systems.

GUITARE Generating User Interfaces from Task models in

co-operative Environments.

INDUCE Advanced Integrated NDT Concepts for Unified Life-Cycle.

LEONARDO Software Quality Evaluator.

DA VINCI

Pisa Research Area

CNUCE / IEI

European Commission

• MEFISTO Modeling Evaluating and Formalizing Interactive Systems

using Tasks and interaction Objects.

MOSAIC-HS Modular System for Application Integration and Clustering

in Home System.

Persistent Application Systems Technologies Environments

and Languages.

SCHOLNET A Digital Library for a Virtual Scientific Community.

• TACIT Theory and Application of Continuous Interaction

Techniques.

 PAROLE / SIMPLE Syntactic and Semantic Corpora and Lexica for

all EU Languages.

ENABLER / ELSNET Coordination Group of National European

Governmental Project - European Network of

Excellence for Natural Language and Speech.

/IEI

CNUCE • PASTEL

International

IEI / CNNCE

• JPL-NASA / CNUCE Mission control for the SRTM - Shuttle Radar Topography Mission.

• SEI - CMU / CCS

Risk Assessment based on Software Architectural Analysis.

UE - NSF

• EAGLES / ISLE

Expert Advisory Group on (Human) Language Engineering Standards.

Advanced Infrastructure

CNR PISA

Italian Registration Authority

Responsible for the assignment of domain names, the management of the registry and the primary DNS for .it

http://www.nic.it

ccs

IAT

Laboratory for Software Process and Product Certification

http://www.iei.pi.cnr.it/CCS

Library

Computer Science Library

8.000 books, 600 serial collections.

ERCIM Technical Reference Digital Library.

On-Line Catalogues are available accessing URL:

http://www.iei.pi.cnr.it/Library/library.html
